

THE GREAT CANADIAN FAMILY HOLOCAUST

The barbarous events which took place during World War II resulting in the murder of millions of Jews and others have been termed the Holocaust. In one of the darkest episodes of human history society operated under lower than animalistic standards and butchered their fellow citizens for no reasons other than greed and hate. It is a tragedy for all Canadians that what goes on in today's divorce courts can be compared to the World War II Holocaust.

During the World War II Holocaust, innocent individuals were identified as enemies of the Government. These individuals were members of various minority groups such as gypsies, Jews, homosexuals, Communists and various others. The Nazi Government proceeded to have various laws passed so that they could cloak their misdeeds in so called "justice." One set of these so called "laws" were the Nuremberg Laws. These laws provided for the exclusion of minority members from Government posts, professions, jobs, etc., and they also provided for the confiscation of property. Since these infamous laws were the "law of the land," Government officials could proceed with impunity to enforce them against unfortunate minority group members, who were left with no defence since they could not ignore nor could they escape the "law of the land." By this process, millions were deprived of their professions, property, education, savings, and ultimately of their lives. It is important to emphasize once that all of this was done under the colour of law.

Today we tragically have the same set of circumstances. A powerful group; Lawyers have managed to have passed by our legislatures various laws favorable to them which victimize families getting separated and divorced. Resulting in victimization and plunder under the colour of the law.

Not so different from what the Nazis did, innocent people are today herded into chambers and within a short time their lives and those in their family are snuffed out. The Nazis used poison gas in their Chambers, but today the so called "law" is used in the judges chambers. The hapless victims, not knowing what lies ahead, enter these chambers unsuspecting. In the case of the Nazis, the victims were told that they were being ushered into shower rooms. Today victims are fooled into entering by being told that they are going to receive justice.

Shockingly, the results of both types of chambers are similar. Don't doubt for one-second that people are not dying as a result of entering judges' chambers today. Routinely, people are losing everything they have in a material sense including their savings, homes, and businesses. Many lose

their families and lives and many commit suicide as a result. The ones who profit the most from all this destruction of family relationships are lawyers, a group which has set itself above everyone else and profits by trafficking in the misery and despair of people getting divorced, and child custody.

Isn't it time to shut down the judicial chambers death machine? How many more innocent victims guilty of only an unsuccessful marriage have to be destroyed before this system is changed? Isn't it time that the Nuremberg Laws of our day are struck down and relegated to the scrap heaps of history where they belong, and that greedy lawyers and unethical judges are put on notice that society will no longer tolerate their crimes against humanity? Isn't it time to institute our own Nuremberg trials to bring to justice those who have caused so much misery to so many for so many years? Isn't it time to act now before the next generation, our children, become victims of the courtroom holocaust that our generation has witnessed?

Our courts and legal system must return to sanity. Our courts must treat men and women equally. To end the need for litigation and to stop the destruction of children, the courts must recognize that children need both of their parents. It is time that both parents be granted the opportunity to demonstrate how they can parent their children. It is time for the courts to stop destroying families by awarding sole custody to parents who are vindictive and controlling.

**STOP THE NEEDLESS DESTRUCTION OF CHILDREN AND
THEIR FAMILIES IN OUR FAMILY COURTS!**

**STOP THE GREED AND CORRUPTION OF LAWYERS AND
BIASED JUDGES!**

**Help Stop
THE GREAT
CANADIAN FAMILY
HOLOCAUST!**
