

Background

The “Surviving the horrors of Canada’s Family Court System” information clinic was developed through the combined efforts of many individuals and groups from across Canada having experience in dealing with Canada’s morally corrupt family legal system. The seminar/clinic is designed to be generic in content and intended to be delivered by any group or individual interested in passing on to others the knowledge contained in the course materials.

The information clinic was developed primarily to give family members the knowledge about the family law system to help them counteract the destructive forces they will face when dealing with the Family Court System and other various government and court related agencies.

The information and techniques taught at this clinic have not been written with an intent to be politically correct but written to expose the harsh realities of this system in a very direct, effective and blunt manner. This workshop is not formally endorsed by any court or member of the legal profession. Much of the information presented at the clinic is information that the courts, government agencies and many lawyers would prefer that members of the public not know about as it makes it more difficult for the Family Court System to strip children and families of their basic rights and freedoms.

Disclaimer

As the courts and legal profession have cleverly protected their monopoly on providing services to the public by enacting laws which make it unlawful for anyone except a lawyer (even an incompetent one) to give “legal advice”, all information given at this seminar/workshop is based solely upon the opinions of dedicated Canadian citizens having experience with the system and should not be construed by any attendee as being official legal advice. Persons should consult with an ethical Family Law Lawyer for “legal advice”

You need to learn the right information...information those in the system won't tell you...or else!

Going through a separation and divorce is likely one of the most devastating events that you and your children will go through in life. It literally can cost you everything you ever accumulated in your lifetime and literally destroy your relationship with your children as well.

Most divorce lawyers do not care about you and your problems. In most cases the only reason they take your case is for money, to put their own kids through college or to pay for their luxury cars and holidays. Once you get that through your head you can start to understand how the whole system is set up against you.

Many Family Court Judges, just as the lawyers, could not care less on whether you are financially ruined by divorce or whether your children are destroyed. Neither do they care about your rights or freedoms. The judge’s only care is that your case proceed through the court, using rules stacked against parents and families in the pursuit of fundamental justice.

In Canada, court actions can take months or even years to get through the court system. Child support obligations last for many years and spousal support can last for lifetime.

Because so much is at stake, it is vital that you be armed with the information needed to better your chances of success and reduce the chances of failure. The “Surviving the horrors of Canada’s Family Court System” clinic will help you do just that.

Don't let this happen to YOU!

What are the objectives of this family court information clinic?

This clinic is intended to:

- Teach you how to save thousands of dollars in legal and court fees.
- Answer some specific questions about your own personal case.
- Teach you how to better identify when you are being set up to be taken advantage of.
- Help you to tell the difference between a good lawyer who is willing to fight for justice from one who is only willing to play with the court's rules and lose your money in the process.
- Teach you just what "the best interest of the child" means and how the court system abuses your child's best interests.
- Help you to better understand the various legal and moral issues that you will face when caught up in the Family Legal System.
- Help you to better understand the various factors and criteria relating to the emotional and physical well being of the child that should be considered during court arguments.
- Teach you some of the early warning signs so that you can be prepared **before** you are served with court documents.
- Teach you to understand the various types of parenting arrangements and child placement schedules.
- Show you how to file a complaint against doctors, social workers, health care workers, lawyers, including how to file a complaint to the Ombudsman of Ontario and the United Nations.
- File a judicial complaint with the appropriate Provincial or Federal judicial councils.
- Show you how to be a real adversary of those trying to destroy you and to **FIGHT** for the rights and freedoms of you and your children!
- Plus, much, much MORE!
