My name is [REDACTED] [REDACTED]. I heard that you help children who are having problems with children Aid and their workers.

My worker ([REDACTED] [REDACTED] of the [REDACTED] Ont Branch of the CAS) twists my words around to mean something totally different. She also intimidates me. She tells me lies or other things that she would do, but never does. ~~she would~~ My

My foster family swears at me and their other foster kids when they get mad. I don't trust my OCh because she tells the Children Aid everything I say.

I am 15 years old and I would appreciate any help you can give me.

Thanks
